

### **Outreach Efforts**

This station strives for broad and inclusive outreach. The station participates in numerous local job fairs where its managers discuss career opportunities in broadcasting with job seekers. Additionally, the station hosts an internship program that provides a meaningful education and work experience for college students interested in careers in broadcasting. The station also offers numerous opportunities each year for students to participate in a job shadowing program that allows students to learn about the various careers available in broadcasting. For additional information concerning the outreach efforts undertaken by this SEU, please see the attached EEO Public File Reports.

During the two-year period covered by this Broadcast Equal Employment Opportunity Program Report, the station has not experienced any significant difficulties in our outreach efforts.
